Community National Bank Supports Green Mountain Farm-to-School!

Newport, VT- Community National Bank exemplifies its name "Community" as it makes the considerate decision to support Green Mountain Farm-to-School, a Newport-based non-profit organization whose mission is to promote the health and well-being of our children, farms, and communities by providing programs to connect schools and farms through food and education. GMFSTS' programs serve a large low-income, at-risk population in predominantly rural and agricultural areas. Through the Community National Bank's donation, totaling \$6,000, GMFSTS' work in these areas, specifically at 7 of the area's schools will be ensured to continue.

Much appreciation and thanks must go out to the Community National Bank for their honorable donation.
